LEARNING TRUST

AN INTRODUCTION TO

Northern Lights

Northern Lights Learning Trust

is a Multi-Academy Trust currently comprising ten primary and secondary schools and over 4,200 children in an area stretching from Wearside through the Tees Valley.

We work together to ensure that young people and adults are given the opportunities and support to flourish. We celebrate the diversity that exists within our Trust and value that each of our individual school families are as unique as the communities they serve.

The power of purpose: Why we do what we do

For many people at Northern Lights there are heart-felt, personal reasons to want to give the next generation the best start possible.

What matters the most on an individual level is a major motivator to achieve success in education. Coupled with a strong sense of belonging, this creates teams - and schools - that can genuinely make a difference.

This sums up the approach Northern Lights takes as a trust, as a teaching school

hub and as an early years stronger practice hub for the North East.

This way of thinking also extends into our work with initial teaching training and means that by attracting like-minded schools, together we can raise standards and bring about positive change.

Our vision is to provide excellent holistic education for children and young people, alongside high quality staff development, to ensure everyone can be their authentic best self.

Our values run through all of our decisions and key actions

Our key value is recognising and listening to the **voice of the child**. It really is at the heart of everything we do.

Schools are embedded in their communities and sense of **community** is a responsibility as well as a value, embracing belonging, kindness, compassion, respect and the opportunities it brings.

Support is the rock upon which we choose to lean or the foundation of help we can give to others.

Integrity means doing what we say we will do, retaining authenticity and humility.

We always do the best we can to instil **pride** and we are proud of what we achieve and the difference we make.

Every school has its own values and its own vision and that's really important to us because all of our schools are there to serve our community but equally, our trust is there to serve each other.

We do that with humility and with an openness because at Northern Lights it's not all about the academic - that is really important to us - but we know, as a trust, we are successful if we have ensured that in an holistic way our children and young people have had every opportunity to experience, to flourish, to thrive, to understand the wonder and the joy of the world around them.
